

# BUSHFIRE MESH

## Description

The mesh is designed for BAL- 40 and FZ rated bushfire prone areas subject to ember attack. It filters pine trees, jacarandas and other fine debris. Ideal for possums, birds, vermin, snakes and areas where fine tree debris falls.

The 1.8 mm aperture is the designed to keep out even small debris but is still effective at water collection and filtering.

## Specification Info

	Bushfire Mesh
<b>Key Features</b>	<ul style="list-style-type: none"><li>• BAL-40 &amp; BAL-FZ Fire Rated</li><li>• Expanded Stainless Steel</li><li>• Akzo Nobet 01010 powder coating</li><li>• Bushfire compliant AS3959/2018</li></ul>
Base Material	316 Stainless Steel
Aperture	1.8mm
Application Type	Gutter Guard or Ember Guard
Coating/Colouring	Powder Coating 01010
Manufacturing	Expanded
Mesh thickness	0.9 mm
Mesh weight	500 gsm
Warranty	2 5 Y e a r s
Max Size	30 m
